

# CHAI HUI YI

## STUDENT DIPLOMA IN SOFTWARE ENGINEERING

### ABOUT ME

I am currently seeking a software development internship to continuously grow through real-world experience. I have a foundation in programming, including working with HTML, PHP, and Java for web and application development. More importantly, I am open to exploring any type of technology or language, and I am always willing to try new tools or frameworks when learning opportunities arise. I hope to work collaboratively in a team, contribute where I can, and learn from experienced developers as I develop into a dependable software engineer.

### EXPERIENCE

- Competition Management System** 2022
  - Created a system for students to register, log in, and view scores
  - Admin panel enabled scoring and result management
  - Stack: HTML, CSS, PHP, MySQL
- Speech Contest Management System** 2022
  - Developed a web-based speech contest system for students to register, log in, and view their scores and ranking in real-time.
  - Implemented a role-based login system with separate access for students and admin users.
  - Designed the admin interface to allow judges/admins to assign and update scores for participants.
  - Used PHP and MySQL to manage user data, scoring logic, and ranking calculations.
  - Created a clean and responsive front-end interface using HTML and CSS to enhance user experience.
- Teaching Canva to Villagers** 2023  
( Kampung Simpok )
  - Volunteered to teach villagers how to use Canva for creating basic designs
  - Conducted hands-on training sessions and guided villagers in designing flyers and posters for community events
  - Developed communication and teaching skills while simplifying technical content for non-technical user.
- Persidangan Pemerkasaan Kursus MPU** 2024
  - Participated in a national-level civic empowerment conference under the MPU curriculum
  - Showcased a group comic based on a real corruption case to raise public awareness through visual storytelling
  - Engaged with attendees during the exhibition to explain the issue and encourage discussions on integrity
  - Strengthened communication, teamwork, and public presentation skills

### REFERENCE

**Madam Siti Nurhasanah Binti**

**Mohamad**

Senior Lecturer, Faculty Of Computing  
And Software Engineering

Phone: +60 16-872 4047

Email: [nurhasanah@icats.edu.my](mailto:nurhasanah@icats.edu.my)

**Madam Ho Hai Inn**

Senior Lecturer, Faculty Of Computing  
And Software Engineering

Phone: +60 16-895 5369

### EDUCATION

2018-2023

( SMK TUN ABDUL RAZAK )

SPM: 2A, 5B, 3C

August 2023 - Current

( I-CATS UNIVERSITY COLLEGE )

CGPA: 3.86

### SKILLS

- Responsive web development with HTML, CSS, JavaScript, and PHP
- Desktop application development using Visual Basic
- Database management and SQL queries with MySQL
- Version control and collaboration using GitHub
- Basic knowledge of C, C++, Java, and Python

### SOFT SKILLS

- Clear communication and active listening
- Strong problem-solving ability
- Fast learner, open to feedback
- Good time management and task organization
